

ANAS SHAIKH

Software Engineer

9321974601 | anas19257@gmail.com | Mumbai

CAREER SUMMARY

Backend-focused Software Engineer specializing in Node.js and microservices architecture. Experienced in building scalable REST APIs, handling concurrent systems, and designing distributed architectures using Redis and RabbitMQ.

TECHNICAL SKILLS

Languages: JavaScript, Java, Python, SQL

Backend: Node.js, Express.js, Spring Boot, Fast API, REST APIs, Microservices Architecture

Databases: PostgreSQL, MySQL, MongoDB

Tools & Technologies: Redis, RabbitMQ, JWT, Prisma ORM, Git, GitHub, AWS, Maven

Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), API Design, MVC Architecture

PROJECTS

TicketGo Scalable Microservices Ticket Booking System (Node.js, Redis, RabbitMQ, PostgreSQL)

- Architected a microservices-based backend **handling concurrent ticket booking workflows**
- Built **API Gateway** and independent User, Event, and Booking services for scalable system design
- Implemented **JWT-based authentication** and secure **REST APIs**
- Integrated **RabbitMQ for asynchronous communication**, improving reliability and decoupling services
- Prevented double booking **using Redis-based distributed locking under concurrent requests**
- Managed data persistence with **PostgreSQL and Prisma ORM** for efficient querying
- [Live Backend](#) | [API Docs](#) | [Postman Collection](#) | [GitHub](#)

Search AI RAG-Based Semantic Search System (Fast API, Qdrant, RabbitMQ, Gemini API)

- Built **an end-to-end RAG pipeline** for semantic search using transformer-based embeddings
- Stored and queried vector data using **Qdrant for high-performance similarity search**
- **Integrated LLM (Gemini API)** to generate contextual responses from retrieved data
- Designed **asynchronous data pipeline** using **RabbitMQ** for scalable processing
- Implemented PDF ingestion, chunking, and indexing pipeline for document search
- Improved response efficiency using **Redis caching and deduplication**
- [GitHub](#)

EDUCATION

Bachelor of Science in Computer Science | Rizvi College – **CGPA:** 8.8

Relevant Coursework: Data Engineering, Machine Learning, Advanced Data Analytics
